INFORMATION DISCLOSURE STATEMENT

SIR:

Enclosed is a copy of a Supplemental European Search Report which I have received with respect to the corresponding European application as well as copies of each one of the references cited in the Supplemental European Search Report. Two of the references, EP 441690 and FR 2581068, are in a language other than English and, therefore, enclosed herewith are abstracts from the Derwent database concerning both of these references.

The relevancy of the references as determined by the European Examiner is noted in the Search Report. The Examiner will note that none of these references appear to be directed to a precipitation process for recovering cyclodextrins.

TECH CENTER 1600/2900

Finally, also enclosed is a PTO-1449 form citing each one of the references as well as the two English language abstracts

Respectfully submitted,

MUSERLIAN, LUCAS AND MERCANTI
